THE BICYCLE OF NO ADVANTAGE.

"We cannot advise a Westminster subscriber to proceed with his scheme at all. He has got a power of locomotion in his own limbs—if they are sound, and he will use them—to which all the machinery in the world can add nothing whatever."—Mechanics' Magazine, April 14, 1832.

}0-0-0-0-0-0-0-0-

"We must abide by the advice we gave a Westminster subscriber in our last number. " We do hold it to be impossible for an individual to travel faster in the long run in a machine propelled by his own personal strength than he would do by employing his limbs in the usual and natural way. Man is a locomotive machine of nature's own making, and not to be improved by the addition of any cranks or wheels of mortal invention."—Mechanics' Magazine, April 21, 1822.

In view of the fact that we have sold 40 bicycles for March, and could have sold 20 more if only we could have had our stock of COLUMBIA CHAINLESS, the above clippings from the Mechanics' Magazine of 1832 are interesting. That editor way back in 1832 had "wheels" and never knew it.

MANILA REBELS MASSING Jas.

New York, March 24 .- A dispatch to the World from Manila Bave:

The rebels are heavily massed in the trenches opposite our lines on the north. This evidently on the north. This evidently comes from a belief on the part of Aguineldo that a blow is to be struck very soon at Malolos, his

capital. Prisoners who have been brought in within the last twenty four hours say that the rebels have the "last ditch" feeling, and will make the most decisive stand they have yet taken. The second line of defense occupied by the rebels forces is between San Ma-teo and Mannaliches. There are rows of trenches there, and the advance of our troops can only be st-p by st-p, with a resistance to be exp cted at every trench.

The weather now is most favorable, and there are only eightyfive men reported in the hospital.

The troops under General Mc Arthur holding the strong lines to the north are provided with shel-ter to keep off the sun, and as they have no marching to do and are not exposed they are generally very healthy.

Will Go to the Mountains.

Manila, March 24.-6:25 p. m. -Two Spanish prisoners, who escaped from Polo to the lines of the Kansas regiment, report that the Filipinos have concentrated their forces at Malabon and Polo. They add that only Aguinaldo's body-guards are at Malolos, and that the rebel leaders apparently The J B Thomas has hauled intend to stake their fortunes on a fight at Malabon, where it was expected an engagement would take place yesterday. If defeated, it is further asserted, the rebels intend to disperse to the swamps and mountains. They are putting their "bolos" in front, believing that the "bolomen's" charm will avert the bullets. The bolos of ter, 53 cs wines and 1 cs drapary the Filipinos greatly outnumber consigned to the following: W G Irwin & Co, F A Schaefer & Co, the rifles in their hands. The CW Macfarlane, T H Davies & rebels are further said to have admitted that they cannot withstand the American shells and

bayonet charges The escaped Spaniads corroborsied the stories told of food shortage among the rebels, and they added that the hospitals are short of supplies.

Union Services. There was a medium sized con-

g egation at the holy week union service in Central Union church lecture room last night Rev. W. A. Gardner was the only speaker of the evening. R.v. W. M. Kin-caid conducted the doctrinal exercises. This evening a communiou service will be held in the main auditorium of Central Union church. Rev. G. L. Peurson, pastor of the Methodist Episcopal church, will deliver the address. Rev. Mesers. Golick, Kincaid and Gardner will serve the tables, assisted by Mesers. A. F. Judd, H. Waterbouse, John McToggart, C. B. Ripley, Wm. M. Templeton and J. N. Taggard.
